

Application No. 10/599,847
Amendment dated October 27, 2011
Reply to Office Action dated August 23, 2011

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-10. (canceled)

11. (currently amended): The combination of ~~claim 10~~ claim 15, wherein said adjusting element is a threaded abutment on said spray nozzle body.

12. (currently amended): The combination of ~~claim 10~~ claim 15, wherein said spray nozzle body is mountable to said receiving element via a snap-fit engagement.

13. (currently amended): The combination of ~~claim 10~~ claim 15, wherein said adjusting drive manipulator is mountable to said receiving element via a snap-fit engagement.

14. (canceled)

15. (currently amended): The combination of ~~claim 14~~, wherein said threaded spindle includes In combination:

a spray nozzle receiving element of a motor vehicle; and
an adjustably mountable spray nozzle, comprising:

a body having a bearing axis, said body pivotally mounted to said
receiving element for pivoting about said bearing axis, said body further including a bearing axis
adjusting element; and

an adjusting drive manipulator configured as a threaded spindle including
a manually-rotatable handwheel.

16. (currently amended): The combination of ~~claim 10~~ claim 15, wherein said spray nozzle body includes at least one washer fluid input element by which washer fluid may be fed into said spray nozzle body.

17. (currently amended): The combination of ~~claim 10~~ claim 15, wherein said receiving element includes a cavity in which said spray nozzle body is receivable, said spray nozzle body further including at least one spray jet alignable with an opening in said receiving element.

18. (currently amended): The combination of ~~claim 10~~ claim 15, wherein said receiving element includes a cavity in which said spray nozzle body is receivable, said adjusting drive manipulator further including a manually-actuable adjustment element accessible through an opening in said receiving element.

19. (currently amended): The combination of ~~claim 10~~ claim 15, wherein said receiving element includes a plurality of snap-lock webs pivotally receiving said spray nozzle body.
